COURT  
BOSTON

Dear Judge Gertner

I am writing in regards to the abuse, that we are receiving at MCW Walpole. we have little access to the law library. we are federal detainees locked up about twenty hours a day. The medical care in here is not good at all.

I am a diabetic I am not getting the proper care that I need, I am losing a toe nail. I told them about it, and nothing has been done. I hold responsible at MCW Walpole for any further damage, to myself.

Because we are not sentenced, we should be able to communicate with our Attorneys at any time, but in here it's impossible because at the time that you can call we are locked up. Also threats by the staff, verbal abuse. Some of the C/O, even call your names, so you can lose your head and do something stupid.

This is one of the reason, why am I writing to you Judge Gertner, to see if it is in your power to find a solution to this very important matter.

Also Judge Gertner, I been waiting trial for over a year, and nothing has happened. Can you please look in to this matter, and advance, this process.

In addition I haven't received, the discovery of my case it been almost sixteen month since my arrest, and I am still waiting for this documents.

Thank you for your time Judge Gertner.

Sincerely,  

Luis Centeno
